

Machine specifications

Arburg ALLROUNDER 275 V 250 - 70

Year: 2018

Control unit: Selogica

Injection Unit .../275

Screw diameter: 22 mm

Injection pressure: 2000 bar

Injection volume: 34 ccm

Shot capacity: 31 g

General information:

Delivery time: Now

Clamping Unit 250/...

Clamping force: 25 t

Platen size: 750 mm

Distance between tie bars: brak mm

Mould height: 127-227 mm

Opening storke: 225 mm

Max.Daylight: 352-452 mm

- * Rotary table, two-position.
- * Plasticizing unit with the highest resistance to abrasion.
- * Needle nozzle 22 mm, closed by spring.
- * Control system extension to switch from injection pressure to clamping pressure.
- * Set of equipment for injection into the parting plane of the injection mold, with vertical positioning of the clamping system.
- * Scissor table for determining the position of the injection unit.
- * check valve
- * 6 heating circuits with a capacity of 2 kW.
- * 50-pin connection according to Euromap 67.
- * Connection for controlling the operation of dye dosing unit.
